Julie Henderson (Century Oaks)

Approved in Committee:	April 5, 2011
Approved CAC Exec:	April 28, 2011
Approved CAC General:	May 12, 2010
Presented to BoE:	June 20, 2010

Acknowledgements

The CAC Special Education Committee would like to thank Pam Harris and her staff of District U-46 for all their assistance. Also, thank you to CAC Exec and The Board for their continued support for this committee.

Committee Mission

The committee will act as a resource for parents of students in special education or those receiving services by providing information and support; the committee may also research ideas for parent engagement.

Initiatives for 2010 – 2011 School Year

1. Co-ordinate two parent information nights
2. Assist with identification of information pamphlets
3. Establish communication with District Special Education administration
4. Determine work that can be accomplished this academic year and next

Summary

We would like to thank CAC Exec and the Board of Education for allowing us to continue the much needed work in this area. There was considerable interest in the committee as attested to by the number of CAC members and others that signed up to participate. There are nine active members of the committee from CAC and U-46 Administration. We had membership representation from all the various school levels within the District from elementary through high school. All of us were here for the betterment of the program and our student's experience. We continued our work to establish parent information vehicles the district can use to improve communication and disseminate information.

Accomplishments

1. **Coordinate Parent Information Nights** – We were able to setup two parent information sessions this school year. The first being a meet and greet with the special education supervisors. This session was attended by over 30 parents. They were able to meet, in small groups, with their student's assigned supervisor. The second parent session was held on April 16. This was a service agency resource fair held at EHS. A tremendous amount of work went into the success of this event. This event was sparsely attended but well received by the agencies and those that attended. The committee will be debriefing in May to plan next year's event.
2. **Creation of special education topic pamphlets** – The district staff is creating pamphlets in conjunction with parent night topics. A pamphlet was created for an overview of special education programs and services that was handed out at our first parent night. A glossary of terms along with the presentation will be distributed during our second parent information night.
3. **Other Activities included** – 1) How the committee can assist the special education department with their activities. 2) Create an online list of available services and agencies. There are a couple of good sources for this information but they are manually maintained.

Recommendations and Goals for 2011-2012 School Year

1. Continue the CAC Special Education Committee for next school year
2. Create a Special Education Events calendar to be posted on the district web site (carry over from last year)
3. Create more parent information pamphlets that coincide with parent nights
4. Create and sponsor more parent education nights
5. Create an online services and agency list.
